THE DAILY NEWS.

JORDAN STONE, Managing Editor.
SAML T. WILLIAMS, Political Editor.
WEDNESDAY, DECEMBER 17, 1873.

To the Public.

The undersigned, in a card published by him several days since, preferred certain charges against the Editor of the *Sentinel* and has made other charges since.

These matters were of a personal nature, and he has, against the rule adopted by him, in conducting the News, in his own self-defense used the editorial columns of his paper to justify the charges which he has preferred. He now awaits the denial of the charge against the Editor of the *Sentinel* in regard to advising raids in Orange and Alamance, and then writing the ANDERSON-NORWOOD letter, which threatened to defeat amnesty to the Ku Klux. If the Editor of the *Sentinel* denies this, I promise to furnish the proof or retract the charge. If he does not deny it, I shall take for granted it is true, and then I will leave the matter to the public, for their own judgment.

I shall not notice in the future in the columns of the News, any personal charges which the Editor of the *Sentinel* shall prefer against my paper. I deem that the provocation has been sufficient to justify the course I have pursued for the last ten days. If any grievance shall be given me hereafter by the Editor of the *Sentinel* the matter can be settled otherwise than through the public press.

This course I have resolved on because I am aware that personalities are distasteful to the public and have only been resorted to by me in self-defense.

JORDAN STONE.

Rev. John E. Edwards, D. D. This eminent Minister and eloquent speaker, will lecture this evening at the Hall of the House of Representatives, on the subject of THE CHOICE OF A WIFE. The reputation of the distinguished lecturer and the interesting theme he has selected for his discourse are ample attractions to secure a large, refined and intelligent audience.

The State Debt—The Committee's Report.

It will be seen that our correspondent X, in this morning's DAILY NEWS, criticizes the bill introduced by the Joint Select Committee on the State Debt.

Our correspondent calls attention to some important defects in the plan of the Committee—one of the principal of which is that the plan makes no provision for the exchange of the State bonds issued in 1850, just before the war, in aid of internal improvements. The point seems to be well taken, and we call the attention of the Committee thereto.

Our correspondent thinks the bill is defective also on the ground that no arrangement is made for the exchange of bonds from which the coupons have been detached, nor for taking up the detached coupons.

Consolidation.

A few days since, we published a communication signed WAKE, giving some reasons why the Consolidation Bill now before the Legislature should not pass in its present shape. We promised the friends of the measure to publish any reply to the arguments of our correspondent, as we were anxious to give our readers both sides of the question. In a matter of so great importance, in which the vital interests of the State are concerned, the public are entitled to have all the light that can possibly be thrown on the subject. If the bill shall become a law, we want such safeguards thrown around it as shall protect the interests of the State and the private stockholders. There should be no loop-holes for fraud or manipulation of bonds in any manner to the detriment of the scheme. The objections urged by WAKE are at least worth considering; at the same time no capacious opposition should be manifested.

By request, we publish the following extracts from an editorial in the *Goldboro Messenger* in favor of Consolidation, referring to some of the advantages in case the scheme shall be consummated:

"The contemplated plan of consolidating the North Carolina Railroads, repeatedly referred to in the *Messenger*, is one of the grandest schemes yet devised for the redemption of the State from its financial embarrassment. This plan, as it has passed the Senate and is now before the House, consists in empowering the North Carolina Railroad Company to buy all connecting lines and to fill up gaps where lines do not connect, and thus complete a grand system of railroads to the Tennessee and Georgia lines. All this is to be done without a cent of expense to the State, by empowering the North Carolina Railroad Company to issue and mortgage its bonds to the extent required for the ultimate and entire completion of this grand scheme.

The amount required for the completion of the contemplated work will not, it is said, be more than six or seven millions. The North Carolina Railroad is worth double this amount, and by their issuing bonds to about half for less than half the value of the road, they will be enabled to obtain the means of completing this great work.

No ordinary man can grasp the full extent of this vast enterprise, nor the advantages therefrom to be derived to our State and people. We can but admire and envy the mind that conceived it; while unable fully to digest and explain it in all its magnificent bearings. Let us see:

It contemplates the consolidation of all our citizens into one homogeneous

ous, co-operating mass. There will no longer be an eastern and a western people, with conflicting interests, in the grand Old North State. They will become one people, having a common purpose, a common destiny and common interests. To our western fellow-citizens, now shut out from the world by a Chinese wall, it will open the markets of all christianized countries, through a North Carolina port. To our eastern fellow-citizens, it will be equally a source of pride and profit. To them, it will throw open the great corn and pork, and flour, and grain markets of the teeming West. It will bring the ships of the eastern continent, laden with European merchandise and manufactures to our very doors; carrying back in return our cotton, tobacco, naval stores, and other commodities, the products of our forests and farms, to supply the wants of their own people.

We have confessed our comparative ignorance of the details and scope of the bill which contemplates the effectuation of this gigantic scheme. It has passed the Senate and is now before the House, where we hope it will be at once passed and ratified as a law. The safeguards to be thrown around it to protect the State and other stockholders from the rapacity of rogues and swindlers and depredators on the Treasury is not for us to discuss. We leave that to the wisdom and honor and sense of justice which should always control in such matters. We will simply remark that no "change of gauge" should, for any consideration whatever, be allowed which would direct the trade of the State into Virginia or other markets, or in any way whatever cut off our own seaports.

It remains but to say that much of the credit, if any, devising and planning and projecting this great State measure belongs to our own Senator, Col. L. W. Humphrey—a gentleman who has never yet had due credit for his energy, capacity and enterprise."

The Bender Family Arrested.

A real sensation was produced in Sparta, S. C., last week by the arrest of the Bender Family, at Bivingsville, a small manufacturing village. Every one will remember the great excitement produced not long since by the discovery of the wholesale murders committed by the Bender Family in Kansas, and the exhuming of the dead bodies of their victims found buried on the premises around their dwelling, and that the Bender family all made good their escape before their crimes were detected.

By vigilant efforts the murderers were traced up and an office with a posse came over from Union county and arrested an old man, near 70 years of age, at Bivingsville, by the name of Thomas Webb, as the veritable old man Bender and his wife as the old lady Bender, and have taken steps to arrest his son Joshua Bender and his wife, who are living in North Carolina, near Hickory Station, on the Western North Carolina Railroad.

We learn that this man Thomas Webb, a shoemaker by trade, formerly lived near Bivingsville, and moved West with his family about 17 years ago. The name of Bender must have been assumed by them when they moved West, or when they committed the deed of robbers and murderers, as the old man and his wife moved back to this county a short time since and settled in the same neighborhood in which they formerly lived, without creating any suspicion, being remembered and recognized by the name of Webb by some of the older citizens who knew them many years ago.—*Cleveland N. C. Banner*.

When the Virginian was towed out of the harbor of Havana on Thursday last, some riotous demonstrations were made. But after assembling on the plaza, and firing a few harmless shots, the crowd was quieted by an address from the Captain General, without any damage being done beyond severely hustling a few Spaniards, who undertook in the first instance to be peace-makers. The Virginian has been left at Bahia Honda, in charge of a Spanish gunboat. The captives of the Virginian have been put on board the steamer Bazan at Santiago, bound also for Bahia Honda. The ringleaders of the recent demonstration at Havana have been arrested, and are to be tried by court-martial.

We observe that the theatres in several parts of the country, obedient to the pressure of hard times, are reducing their prices of admission. There is no reason why, when wages are cut down and money is scarce, managers and impresarios should not fall a little in the old scale of inflated war figures.—*Louisville Courier-Journal*.

A letter just received in Washington from England says that Mr. Motley looks very much better than he did two months ago, but he is far from well. He is under the care of Sir William Gell, who attended Louis Napoleon, and who is regarded as the first physician in England.

The Governor of Wyoming winds up his thanksgiving proclamation in this style: "Give thanks unto the Lord, for His mercy endureth forever, in witness whereof I have hereunto set my hand, and caused the great seal of the Territory to be affixed, &c."

Captain Jack's little unpleasantness with our government cost upwards of \$355,000, exclusive of the pay, clothing and armament of the troops engaged.
